At the meeting of the city council next Monday night the Rock Island railway will ask the city to vacate ten feet of Ninth street on the west side betweenth Twelfth and Eleventh avenues and ten feet on the north side of Twelfth avenue between Eighth and Ninth streets. The company has secured an option of the block bounded by these streets and avenues and if it can sethis concession from the city will build its new roundhouse there. The size of the roundhouse, which will contain twenty stalls, will be 40x80 feet and the property without the additional ten feet from the street and avenue is not large enough for such a building. GEAR SUPPORTERS CONTROL GATHERING

Resolution Favoring Return of Venerable Senator to Congress is

was read the cheering with which the venerable senator's name was greeted demonstated the fact that among the 170 delegates there were very few supporters of Mr. Cummings. In fact there were but three Cummings' delegates in the convention, and in duty bound they voted "no" on the adoption of the report of the committee on resolutions.

The convention, which was held in the superior court room, was called to orde shortly after 11 o'clock by Chairman Everest of the county central committee, who wasted no time in preliminaries but at once proceeded to business by naming Dr. F. W. Pierce of Carson as temporary chairman. Dr. Pierce, on assuming the gavel, thanked the convention for the honor, but refrained from making a speech, saying that the delegates were there for business and that a speech by him would be out of order, H. V. Battey, editor of the Avoca Herald, was selected as temporary secretary and the following committees were named: Credential's-First district, A. C. Meitzen

Second district, J. H. Turner; Third dis-triot, R. McElraith; Fourth district, A. Woodworth; Fifth district, John Norman; Sixth district, Ora Clark; Seventh district, F. Sapp.

Resolutions.

on resolutions, Charles M. Harle reading the own right and title. following, which were adopted amidst much enthusiasm, the mention of the names of Senator Gear being received with loud

Resolved, by the Republicans of Potta wattamie county, in convention assembled: First—We heartily endorse and commend the wise and patriotic administration of William McKinfey.

Second—As Americans we take pride in the valor displayed and success achieved by our soldiers and sailors, on land and sea, and express our veneration for the memory of the men who have given up their lives in the defense of the nation's flag, and we ex-tend our sympathy and cheer to the brave men who are now sustaining the flag and prudent policy of the administration in appointing experienced and capable commis-sioners to investigate the condition of affairs

government and disposition of that territory may be determined by the patriotic and en-lightened judgment of the American people after full knowledge of all the facts.
Fourth—We denounce those men who, for personal and partisan ends, have attempted

our soldiers, and embarrass the government in the discharge of the duty which Provi-dence has committed to it. Fifth-We are heartly in favor of maintaining the present gold standard and favor such legislation as will place it beyond the

reach of partisan efforts to impair it.

Sixth—We are unafterably opposed to trusts and combines as hostile to the best interests of our people and as threatening our financial security and commercial su-premacy. We deny the partisan charges of the enemies of the republican party that these combinations are the result of repub-lican legislation. The falsity of that charge s fully shown by the fact that they exist different systems and different policies. The republican party has given legislation both by congress and our own state against these institutions, and we demand of both national and state administrations vigorous and impartial execution of these laws the adoption of any additional legislation which experiences may prove necessary, to the end that all trusts may be stamped out and the commerce of the nation relieved from unnecessary burden, and our financial security be freed from the menace of trust and combines entered into either for the the consumer or the floating of wild-cat

Seventh-We commend the wise and businesslike administration of Leslie M. Shaw the governor of lows, and particularly his earnest and successful efforts in furnishing and equipping lowa's quota in the recent call for volunteers. We congratulate the people that under a businesslike administration the affairs of the state have been prudently managed and its finances placed upon a

sound and enduring basis. Eighth—We congratulate Iowa republicans in the high standing which their representon the high standing which their represent-atives in congress have attained, both in the senate and the house of representatives, and upon the universal acquiescence in the candidacy of Colonel Henderson for speaker

of the house of representatives.

Ninth—At this time, so pregnant with great events, and when the legislation of the near future will so radically affect the welfare of our people we deem it imprudent to dispense with the experience, ability and influence of Hon John H. Gear in the sen-ate of the United States, and we heartly favor his return to the position to which he has brought such signal fitness, experience and integrity, and in which he has reflected

honor on his state and party.

At this point in the proceedings Major E. A. Consigner of Avoca rose and submitted the following resolution, which he said he did on behalf of many old soldiers, and which was adopted by a rising vote:

Resolved. That we enthusiastically approve President McKinley's special endeavor to do away with all sectional feeling, as expressed by himself lately in some of the southern states; sealing our friendship for the living by demanding of the government to decorate the graves of the confederate soldiers.
